

OMAR H. ELBEDWEHY

Full Stack Developer

+201208393565 omar-elbedwehy@gmail.com omar-elbedwehy.vercel.app Port Said, Egypt 09/29/2007

EXPERIENCE

Front-end developer

Albait Design For Software Solutions

07/2023 - 03/2025 Kuwait . Remote . Full-time

- Engineered responsive web interfaces across devices, translating UI/UX designs into production-ready frontend experiences
- Built customer-facing admin dashboards, prioritizing intuitive UX and cross-device compatibility
- Delivered frontend features for ASP.NET projects using Blazor
- Co-developed SmartMind, an educational platform in Kuwait – building the frontend, integrating backend APIs, and owning the UI/UX for learners

Full stack developer

Freelance . Fivem community development

10/2024 - Present Remote

- Engineered full-stack web applications spanning frontend, backend, database, authentication, deployment, and AI-powered functionality
- Delivered interfaces with React, Next.js, and Tailwind CSS, backed by Node.js and Express.js services
- Designed and shipped custom web interfaces for the FiveM development community, translating UI/UX designs into responsive, production-ready builds

EDUCATION

Bachelor's Degree • Computer Science and Information Technology

Egyptian E-Learning University (EELU)

2026 - Present Egypt

PROJECTS

Travel With Friends – Full-Stack Travel Platform

www.twf.tours

Next.js 15 · React 19 · TypeScript · Tailwind CSS 4 · PostgreSQL · NextAuth · Radix UI · Leaflet · Framer Motion

- Built an end-to-end travel platform for destination discovery, tour booking, regional exploration, and AI-driven itineraries – owning both product design and development

Paws-Safe – Peer-to-Peer Pet Adoption & Fostering Platform

www.paws-safe.vercel.app

Next.js · Auth.js · Supabase · PostgreSQL · Messaging · Notifications

- Built and mentored a UWE Bristol graduate project delivering adoption/foster listings, advanced search, structured applications, and direct messaging between pet owners and requesters

SUMMARY

I am a Full Stack Developer who builds web products from frontend all the way to backend. I work on user interface development, backend architecture, APIs, databases, and product design. Furthermore, I have hands-on experience with React, Next.js, Node.js, Express.js, Nest.js, RESTful APIs and many database technologies. I build web applications with these tools while applying rules, for web application security and performance improvement

SKILLS

Frontend Development

HTML5

CSS3

Sass

JavaScript

TypeScript

jQuery

React

Redux

Next.js

Tailwind CSS

Bootstrap

Backend Development

Node.js

Express.js

NestJS

Redis

Prisma ORM

JWT

OAuth2

Databases

MongoDB

PostgreSQL

MySQL

SQL

Web Security

Web Application Security

Network Reconnaissance

Log Analysis

Vulnerability Assessment

Incident Response

PROJECTS

MFA Security Testing Lab

Keycloak · OAuth 2.0 · Node.js · Express · Wazuh SIEM · RBAC · Docker · Proxmox · WireGuard

- Led a controlled security lab for CSE Connect Exceler8or 2025, submitted to NCSC – designing attack scenarios (brute force, MFA fatigue, TOTP removal, session hijacking, privilege escalation) across Keycloak and Node.js, with Wazuh-driven detection, automatic IP blocking, and PICERL-based response

Sandra – Contemporary Womenswear E-Commerce Store

<https://sandraelkafas.com>

WordPress · WooCommerce · PHP · jQuery

- Built a WordPress/WooCommerce fashion storefront with category-based catalog browsing, wishlist, and cart functionality

SKILLS

DevOps

Git

GitHub

Docker

CI/CD

Design

Figma

Responsive Design

Web Performance

CERTIFICATIONS

HTML and CSS in depth
